

STAGE 4 TECHNOLOGY MANDATORY

Multimedia | 20-period teaching program

Digital and communication technologies | Syllabus-aligned network review copy v2.0

Course	Stage 4 Technology Mandatory	Syllabus	Technology 7-8 Syllabus (2023)
Delivery	8 weeks 20 x 60-minute periods	Pattern	5 periods per fortnight
Lesson balance	10 Site/theory 5 Project/folio 5 Practical	Implementation	Current and mandatory from 2026
Official source	NSW Curriculum official page verified 28 Aug 2026	Focus	Digital and communication technologies
Status	Local review copy matching Word, PDF and manifest v2.0	Approval	Teacher to confirm before delivery
Complete Stage 4 outcomes appear below. Period rows identify the outcomes directly supported by each lesson; this does not claim that every outcome is formally assessed in this unit.			

Official Stage 4 outcomes

Outcome	Exact official wording	Outcome	Exact official wording
TE4-SDP-01	explains relationships between sustainability, design and production	TE4-DES-01	communicates and evaluates design ideas and solutions
TE4-PDP-01	describes the practices and processes of designers and producers	TE4-SAF-01	selects and safely uses tools, materials, technologies and processes
TE4-MSD-01	explains how materials, systems and components contribute to solutions	TE4-DIG-01	demonstrates technological literacy to safely interact in digital environments
TE4-PPM-01	applies processes in the planning, management and production of projects	TE4-DIG-02	uses data and digital systems to code, design and produce projects

What students are learning

Learning focus	In plain English	Learning focus	In plain English
Sustainability, design and production	Explain how design and production choices affect sustainability.	Design communication and evaluation	Communicate ideas and judge solutions against criteria.
Designers and producers	Describe how people investigate, plan, make and improve solutions.	Safe practical work	Choose and use approved tools, materials, technologies and processes safely.
Materials, systems and components	Explain how parts, materials and systems affect how a solution works.	Safe digital literacy	Work safely and responsibly in digital environments.
Project planning and production	Plan, manage and produce the project in a clear sequence.	Data, coding and digital systems	Use data or digital systems where they support the unit's design and production.

Teacher-to-confirm register

When	Decision needed	Confirm by
Before the unit	Timetable, lesson order, class supports and approved adjustments	Teacher / faculty
Before practical work	Activity, materials, equipment, supervision and current risk controls	Teacher / faculty
Before assessment	Task authority, marks, dates, conditions and submission method	Teacher / faculty
Before classroom issue	Current links, program version and any local sequence changes	Teacher / faculty

Teaching program | Periods 1-10

10 x 60-minute lessons. Text is 9.5 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
1	<u>Site/theory</u>	Module 1 - Brief, purpose and audience	Teach: Introduce the verified Fast Food Futures design challenge; model a source-bound brief and respectful.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PDP-01	Check: Brief separates confirmed requirements, student choices and one unsupported.
2	<u>Project/folio</u>	Module 1 - Originality, responsible AI and brief.	Teach: Model a transparent originality trail and the ideas-only AI boundary from the Drive brainstorm.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PPM-01	Check: Student contribution, checking, attribution and privacy boundary are visible.
3	<u>Site/theory</u>	Module 2 - Colour roles, contrast and typography	Teach: Explain colour roles, context, contrast, type roles and legibility using the Drive design masters.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PDP-01	Check: Palette and typography decisions name purpose, audience and a readable.
4	<u>Project/folio</u>	Module 2 - Hierarchy, layout and visual direction	Teach: Model hierarchy, layout relationships and a purposeful mood-board direction.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PPM-01	Check: Visual direction is coherent and success criteria are observable rather than.
5	<u>Site/theory</u>	Module 3 - Symbols, recognition and logo stress testing	Teach: Explain symbol recognition, simplicity, scale and contrast; model the logo stress-test before students.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-PDP-01, TE4-DES-01	Check: Logo remains recognisable in small, large, one-colour and.
6	Practical	Module 3 - Canva logo workflow, variants and critique	Teach: Use the current Drive logo demonstration first, then model criterion-based critique and deliberate logo.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-SAF-01, TE4-PPM-01	Check: Selected logo and rationale show an original decision.
7	<u>Site/theory</u>	Module 4 - Menu structure, grouping and scan paths	Teach: Inspect the complete current Drive canteen menu first as an information-design example.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-MSC-01, TE4-PDP-01	Check: Menu structure uses labelled groups, predictable alignment and a reader.
8	<u>Project/folio</u>	Module 4 - Honest product information and menu evidence	Teach: Model the boundary between supported description, evidence-needed claims and details that must be.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PPM-01	Check: Student menu evidence is original and does not copy historical products.
9	<u>Site/theory</u>	Module 5 - Poster composition and focal path	Teach: Use the current Drive poster first to model composition, focal point.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-PDP-01, TE4-DES-01	Check: Poster plan names what viewers should notice first, next and last.
10	Practical	Module 5 - Poster production, clean edges and.	Teach: Use the current Drive poster demonstration and three mock-ups first.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-SAF-01, TE4-PPM-01	Check: Poster export has clean image edges, readable hierarchy.

Teacher to confirm before use: Periods 1-10 practical activities, materials, equipment, supervision and current risk controls.

Teaching program | Periods 11-20

10 x 60-minute lessons. Text is 9.5 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus alignment	What the teacher checks
11	<u>Site/theory</u>	Module 6 - Consistent identity across touchpoints	Teach: Explain how shape, colour and type stay coherent while scale and placement adapt to each application.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-PDP-01, TE4-DES-01	Check: Student can distinguish deliberate consistency from copying one layout.
12	Practical	Module 6 - Staff-uniform concept, suitability and.	Teach: Use the current Drive staff-uniform demonstration first; model placement, contrast.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-SAF-01, TE4-PPM-01	Check: Uniform concept retains brand recognition and explains suitability.
13	<u>Site/theory</u>	Module 7 - Motion states and Match and Move	Teach: Use the verified 6:21 Drive tutorial first to explain complete visual states.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-PPM-01, TE4-DES-01	Check: Storyboard names the complete starting and ending states and the element.
14	Practical	Module 7 - Timing, MP4 export and evidence-quality.	Teach: Model timing, playback and MP4 verification. Use the supplied 0:16 clip only to check what a source.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-SAF-01, TE4-PPM-01	Check: Reopened MP4 is checked for timing, hierarchy, crop, spelling and ending.
15	<u>Site/theory</u>	Module 8 - Persuasion, target groups and greenwashing	Teach: Use the current Drive marketing simulation first to distinguish informative persuasion.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-SDP-01, TE4-PDP-01	Check: Student identifies what a claim says, what evidence exists and how wording.
16	<u>Project/folio</u>	Module 8 - Business ripple effects and designer.	Teach: Model a cautious system ripple chain that labels confirmed links.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PPM-01	Check: Ripple chain makes uncertainty visible and ends with a realistic.
17	<u>Site/theory</u>	Module 9 - Web portfolio structure and prepared media	Teach: Use the current Drive Google Sites demonstration first to model the Home.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DIG-01, TE4-PDP-01	Check: Site structure is predictable and media preparation includes alt text.
18	Practical	Module 9 - Publication, access and teacher-viewable.	Teach: Distinguish preview, publish, authorised access, local save and submission.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-SAF-01, TE4-PPM-01	Check: Link works for the intended viewer without exposing edit access.
19	<u>Site/theory</u>	Module 10 - Success criteria, feedback and design.	Teach: Model how criteria, observable feedback and evidence support a concise design rationale.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DES-01, TE4-PDP-01	Check: Rationale connects audience, purpose, criterion, observed evidence.
20	<u>Project/folio</u>	Module 10 - Evaluation, next iteration and final.	Teach: Model an honest criterion-evidence-judgement-next-iteration evaluation and a safe order for.	Create, communicate, test and evaluate a digital solution Outcomes: TE4-DIG-01, TE4-PPM-01	Check: Evaluation uses specific evidence, identifies a limitation and proposes one.

Teacher to confirm before use: Periods 11-20 practical activities, materials, equipment, supervision and current risk controls.
